NAIAD NAMES YEARBOOK

By SUZANNE STALKER

The staff of the first LSJC yearbook has announced the name of the edition to come out the last week in May. From the contest held in November the staff chose the title from approximately 25 submissions. The winning entry, NAIAD was submitted by Miss Betty Royals, LSJC faculty member.

The Webster definition of NAIAD is: One of the nymphs believed to live in, and give life and perpetuity to lakes, rivers, springs, and fountains. It is a creature from Greek and Roman mythology, and not being an elf, it is nearer to the dryad family. It is not a masculine figure but a neuter or neutral creature. The naiad is a representative of a woodland water area which makes it particularly appropriate for our Silver Lake campus location.

The illustrations of our naiad friend which will appear in the annual are a special creation of one of our campus art students, Jack Colling. Perhaps our figure is not the true, precise example of a naiad, but it will be a unique mascot for our yearbook.

The NAIAD staff expresses its thanks to Jack as well as Miss Royals for their help in the development of NAIAD.

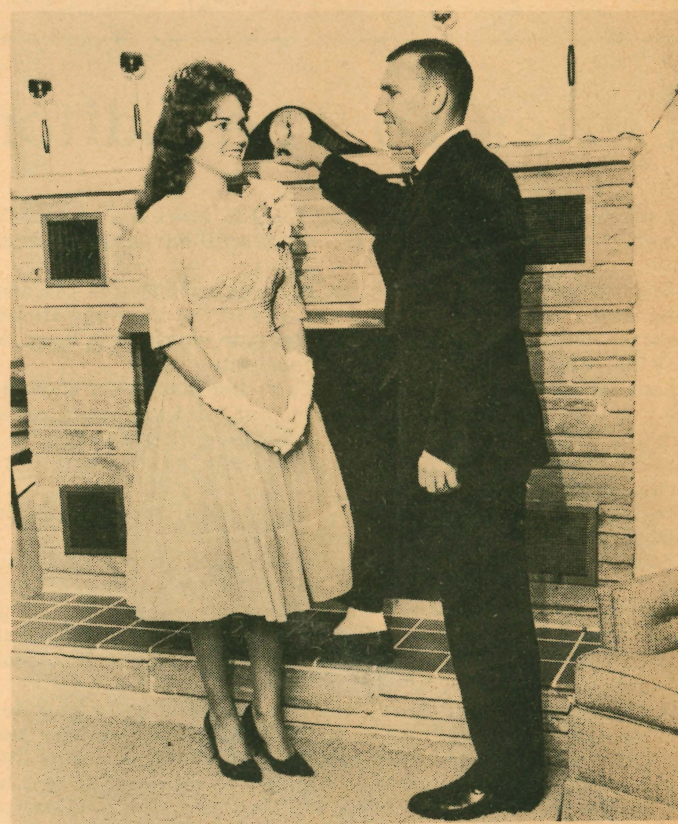

One of the first orders of business in organizing the annual was the making of class pictures. Cooperation from students with Universal Studios in Leesburg made it possible for individual Freshmen and Sophomore class pictures to be made quickly and efficiently.

The naming of Mr. and Miss LSJC highlighted recent yearbook activities. Congratulations go to Miss Mary Helen Rob-

bins and Mr. Glenn Miller for proving their popularity with the Lake-Sumter student body. Elected favorites around campus were Janet Baker, Sharon Reich, Dot Kurras, and Tim Hatfield. Other students reaching the finals for this honor were: Linda Davenport, Jan Eaddy, Suzanne Stalker, Hugh Lindsley, Jim Richardson, and Cliff Strote.

The production of a yearbook is a tremendous job and responsibility which, in the case of Lake Sumter, takes many, many extra hours of tedious and often unappreciated work. Lake Sumter is fortunate in having a fine staff of people who are willing to give of their time and energy to make LSJC's first yearbook one of which we can be proud. Mary Helen Robbins, as editor, Jeff Wright as Associate Editor, Bill McClellan, Betty Strickland, Ross Gentry, Jock Colling, and the rest of the staff are busy now with last minute details as they try to meet the final deadline on time.

The NAIAD will be distributed to all full-time students. Part-time students will soon be given an opportunity to buy a copy.

Miss Robbins, Mr. Miller
Are LSJC Favorites

Lakers Capture Rebel Flag

By JEFF WRIGHT

Not all victories are won by physical strength on the "battlefield." The strategy employed by "thinkers" may prove the strongest factor in winning. Consider the Central Florida Junior College game in January.

The Lakers played a very good game, but were outclassed by a more experienced squad. Although the Lakers did not win the game, they did have a type of victory. The Rebels had a very large Rebel flag hanging on the wall of their gymnasium. As the

game was ending, a student of LSJC and his young friend removed the flag from the wall. The flag was then smuggled out of the gym under the student's sweater. Next the flag was transferred to another group of LSJC students who got into their car and left the campus. Once these students reached the highway, they were met by still another car. Again the students transferred the flag to this car which brought the flag on to Leesburg.

On Tuesday, January 28, the Lakers entertained the Rebels here. As the Rebels entered the Leesburg gym, they were very surprised to see their flag hanging from the rafters of the gym, draped in the Laker's colors of green and silver.

After the game was over, Coach Mel Carpenter of Ocala asked Coach Hollingsworth to return the flag. Coach Hollingsworth then instructed one of the custodians to get a ladder. As the ladder was brought in, a group of Lake Sumter scholars relieved the custodian of the ladder and disappeared out the back entrance. After a few discussions with Coach Hollingsworth, the ladder was returned. The Rebels then began to climb the ladder to get the flag. The Lakers had already returned the CFJC sign at the end of the game. While the Rebels were getting their flag, the Lakers were borrowing the sign again.

As the Rebels were removing the flag from the rafters, a photo-

grapher from the Angle tried to take some pictures. Coach Mel Carpenter instructed some of the Rebels not to let the photographer get his pictures. After a quick call for help the photographer was able to get some pictures thanks to some members of the LSJC body. When the Rebels were ready to leave the gym, the Lakers formed a line to wish them good-bye until next year. As the Rebels passed through this

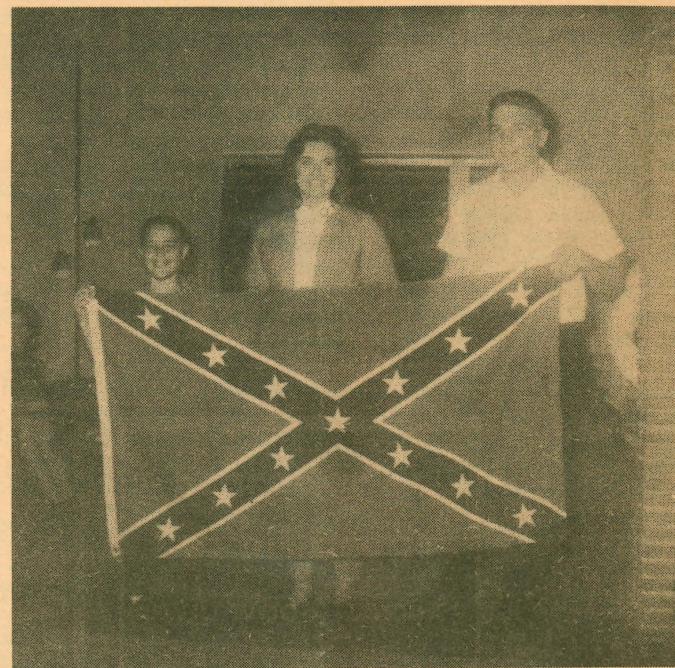

line, there was a very brief but friendly scuffle.

While the carloads of Rebels faded into the distance, you could hear the Lakers as they vowed that the flag would again be by our next year.

No doubt this is only the first phase of this momentous battle—the Laker's chief strategists are already at work making plans for recapturing the Rebel Emblem next year.

The rafter-raised Rebel flag with Lake-Sumter colors attached finally came down in the hands of a Rebel, but much against the wishes of the Lakers.

Proud Lake-Sumter students and friend show off the flag which provided the topic for the "battle" between Lake-Sumter and Central Florida. Left to right are Frank Taylor, Sharon Reich, and Warren Schroeder.

Letter To The Editor

I am one of the adults attending L.S.J.C. More and more of us are going full speed ahead into this wonderful adventure of learning.

Besides being older, and a little more experienced in the ways of the world, the difference between us and the teen-age student is that we came here self-propelled. Because we want to learn, we enjoy learning; we are thrilled and fascinated by it!

Some of us attended college years ago and made poor showings (and I'm a shining example!). I regret that I did not apply myself then, and if I had one word of advice to the young people now, it would be "to get with it." Time is so valuable, so scarce, that it is murder to kill it with lethargy.

It is not the young students, however, who are complaining about this college; I am! I am cranky about my comforts.

And those who have walked in the rain from the farthest classroom, No. 6 in Skeen Elementary, where I have an English class, through the obstacle course to get to that horrible hall behind the high school, the Art laboratory, where I, with four other students, have a French class, can understand my complaint. That gooeey red clay!

And although there is ample parking space back there, college students are not allowed to use it. With so few of us, why not? The hole would not be so unattractive, if it were more accessible.

Or, if that cannot be arranged, surely there must be another spot where our class could be held. Why not the publications room? Just because we are a small class, should we be penalized?

I realize that problems like this will be resolved next year when we move into a beautiful new college, but what about a few comforts now? As I say, I am cranky about my comforts.

—Frankie Abel.

History Course Makes History

By BARBARA PATTERSON

Lake-Sumter's first experience with televised lecture courses has begun with a history course, 101, now being viewed daily over channel 2, Daytona Beach. The Florida Institute for Continuing University Studies is endorsing the project with the cooperation of five Central Florida Junior Colleges: Brevard, Daytona Beach, Lake-Sumter, Central Florida, and St. John's River Junior College.

The program is shown Monday through Friday, 6:30-7:30 AM. Teachers from the various Junior Colleges who will present the lectures are: Charles Raing, St. Johns River Junior College, John Callebs, Lake-Sumter, Ernest Jer-nigan, Central Florida, Dr. Mary Katherine Park, Brevard, Henry B. Watson, Dr. Merlin G. Cox, Daytona Beach, and William Mitchell, Florida Institute for Continuing University Studies. Daytona Beach Junior College is the host institution, and Dr. Mer-lin G. Cox, as course coordinator, introduces each lecturer for the morning's program.

This course is an accredited college course and approximately twenty-three students from Lake-Sumter are taking advantage of it. Judging from comments around campus, most of the students taking the course like what they have seen of it, although there are mild complaints about the "early-bird" hour. But, of course, this is the most reason-

able hour for giving everyone an opportunity to take the course, students, working people, and housewives. Almost everyone is at home at that time in the morning.

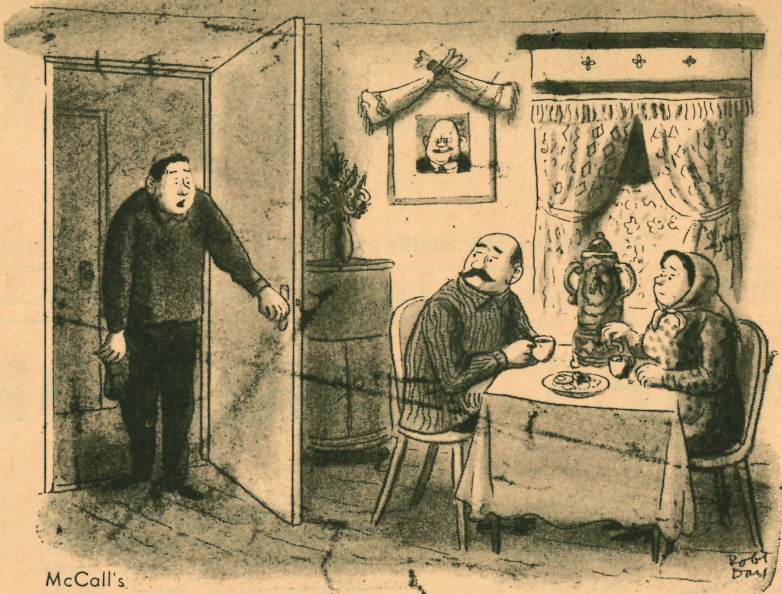

Of most benefit to the partici-pants in the course will be the regularly scheduled discussion periods with professors from the colleges. Although there will probably be a little diversity in lectures and texts used, the course will not be more difficult than a regular college course. Standardized tests are to be administered by the college.

With the success of this project it is hoped that many more such courses will be televised, for not only will students benefit, but the public as well. Television, as a media of education, offers vast opportunities that are yet to be explored.

DOTTIE'S DAFFY-NITIONS

By Dottie Kurras

Travel Folder—A trip tease.
Bustle—A covered waggin'.
Teen-ager—One who has reach-ed the age of dissent.
Aardvark—aan aanimal that re-sembles aan aanteater.
Llama—An animal that llooks llike a camell.
Lisp—To call a spade a thpade.
Fjord—A fjorm of estuary bjordered by steep cliffs, especi-ally in Njorway.
Sailor—Wolf in ship's clothing.
Blonde—Cross between a brun-ette and a drugstore.

Business Department Offers New Program

By PENNY ASH

It has been the desire of Lake and Sumter counties to have a Mid-Management program in marketing and distribution for 1964-65. The purpose of this program is to prepare persons for successful careers in our communities' business organizations.

There are two phases of Mid-Management Education Program: combining of general education and specialized business subjects at the college, and working on some job. The latter phase can be offered on an afternoon or alternate day basis. Comparable wages to other beginning employees would be given along with college credit.

A survey form has been distributed throughout the surrounding towns to find the extent of interest in this program. Questions pertained to whether the addition of this program to the curriculum is favored; whether businesses could provide jobs for Mid-Man-agement students; whether after-noon or alternate days employ-ment was favored; and whether the business would provide a variety of experiences for the student.

There have been some changes in the General Business course for the sophomore year. Business Law 215-216 has been changed to 215. It is designed to acquaint the student with the common practical laws as applied to ordinary business procedures. A study of laws relating to contracts, negoti-able instruments, agency, es-tates and trusts, security devices, personal and real property, busi-ness crimes, and government reg-ulation will be included. This course is completed in one semester.

Business 205-206 has been changed to Business 111. This course deals with the basic prin-ciples of management underlying the solution of problems of organ-ization and operation of business enterprises.

Business 209, an introduction to the standard rules and principles in indexing and filing, will be of-fered again in this spring semes-ter. Practice is given in arrang-ing materials by the alphabetic, numeric, geographic, triple check automatic, and subject methods of filing. By offering this course in the spring more use will be

obtained from the machines.

Business 220, which is offered in the Fall and Spring, will help the student develop skill in the operation of the ten-key adding machine and rotary calculator, and basic principles of operation of the key-driven calculator. Stu-dents will spend 18 hours working in the Leesburg City Hall on Na-tional Cash Register machines, which can be used for bookkeep-ing, accounts payable and for pay rolls.

Evening courses which are of-fered this semester are Principles of Accounting (3 credits), and Advanced Shorthand (non-credit).

New Campus Club Organized

By J. L. LaRUE

The Kiwanis Club is helping to form a new organization at Lake Sumter Junior College. It will be called the Circle K and is a service organization for college men. It will operate on the cam-pus of LSJC under the direction of its new constitution, the local Kiwanis, and a college advisor.

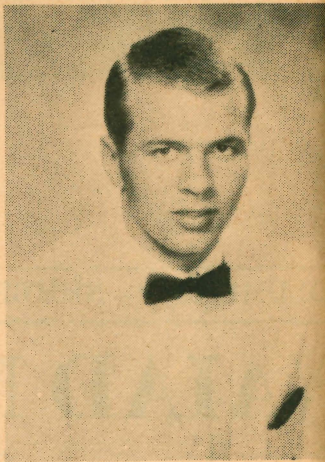

Memberships in Circle K is restricted to full time male stu-dents. At the present time 27 ap-plicants were invited into mem-berships on the twenty-first of this month; these were chosen from about 60 men who petitioned for membership.

Before Circle K can be recog-nized internationally, the mem-bers must petition Circle K In-ternational in Chicago. This will be done as soon as all of the applicants have been accepted into membership.

The local Kiwanis, along with the college administration, has shown a lot of interest in Circle K, and they have been most helpful in its formation.

Note of Appreciation

The staff of the yearbook wish-es to express its sincere apprecia-tion to Sumter Electric Company for sending in Mr. Harold Brown to take pictures for the annual. Their help has enabled the staff to meet deadlines and include photography of professional qual-ity.

CLIFF STROTE

Mystery Personality

Last edition's Mystery Person-ality was correctly identified as Cliff Strote. Mary Helen Robbins was the first person to recognize Cliff from the clues. Mary Helen is now entitled to one free 45 RPM record from Mr. Bob Man-ning's Music Center in the Palm Plaza.

This edition's Mystery Person-ality is 5' 11" tall and weighs 165 pounds; he is 18 years of age. He has brown hair and brown eyes. He likes sports and his hobby is collecting chewing gum wrappers.

If you think that you know who the Mystery Personality is, con-tact Jeff Wright. The first per-son to correctly identify the Mystery man will receive a free 45 RPM record from the Music Center.

Editors Note: Lake Sumter has shown by this list of people that it has many students doing exceptional work. These people are to be commended and I hope the list will grow next semester.

Suzanne Stalker, Editor

The Homecoming Court was seated in a special section for the big game in Ray Hayes Gymnasium. After being presented at halftime of the game, the court awaited the crowning at the dance held in Leesburg's Elks Club.

NEWS

By BUTCH WILSON

The Letterman's Club has been especially busy since the last printing of *The Angler*. Maybe the most important function of the club has been homecoming and activities concerned with homecoming.

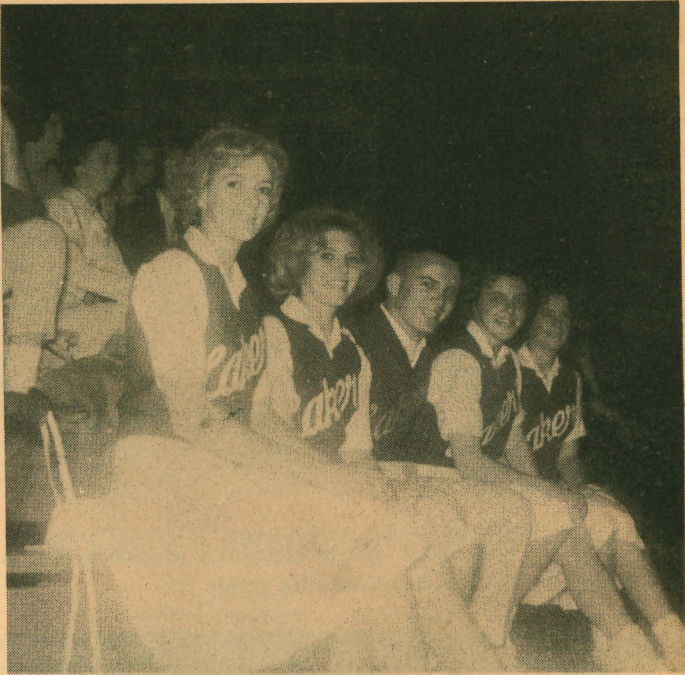

As most of the student body knows, Lake-Sumter won another game. The Letterman's Club spent the entire day Saturday, February 8, decorating and getting ready for homecoming night. A special section was reserved for the Homecoming Court and Lake-Sumter alumni.

A faculty game preceded the main event Saturday night. The game was nip and tuck all the way, but the student pros edged out a close victory. The faculty had some bright spots, however. Sure-shot Pop came through when he was needed to net a 40-foot, off-balance, one-handed beauty to give the faculty the field goal they ended the night with. Nevertheless, Legs Hollingsworth emerged as high point man for the faculty with three free shots, although he shot 22 times.

Being losers did not seem to bother the best-dressed team. An assortment of gaily decorated p.j.'s adorned the classier older team which seemed truly inspired each time it gained possession of the ball by the fancy footwork and cagy ball handling of Gunner Callebs. John dribbled circles around his younger opponents, offsetting any defensive move the students might make.

A fine group of cheerleaders cheered their teams to victory. Most of them could be said to have plenty "up top," but still not too smart. Lips Stephenson led the cheers backed up by such beauties as Ross Gentry, Jeff Wright, Bill McClelland, and Jimmy Mayer.

Next came the regular game in which the Lakers outpointed Daytona Beach Junior College by a score of 78-69. The Lakers have a better record this year than last in that we lost only 12 this season. The team took great

The Lakers Cheering Squad added their usual enthusiasm to the homecoming event.

LIBRARY NEWS

Library to Lose Librarian

By SUZANNE STALKER

We are happy to be able to announce in this column the source of the twinkle in our librarian's eyes since Christmas. Miss Hubert is to be married in the spring or early summer to Mr. Andy Snellings, a realtor from Titusville. Both Miss Hubert and Mr. Snellings are from Fredericksburg, Virginia, where the wedding will take place. She will remain at Lake Sumter until July, but then she will be in Brevard County. Lake Sumter is losing a fine librarian, and I know everyone wishes the couple the best of everything.

Mrs. Williams will still be in our library next year, but people are now being interviewed for the librarianship position.

A new addition to the library is the metal stand on the check-out counter which lists all magazines available in our library. Students will be interested in just browsing through the list to see what we have on hand. In the next week there will be more book cases in the library to house the many new books which have come in. These shelves will be placed in front of the bulletin board. Another recent addition is the book *FOUR DAYS* from the American Heritage series which deals with the four days from President Kennedy's death to his funeral.

A reminder to students and everyone using the library is the fact that any suggestions you might have regarding the library are welcome. There may be a special book you are interested in which the library may want to purchase, or you may have a suggestion for the bulletin board. Fresh, new bulletin board ideas would be greatly appreciated by the staff who try to change them as often as possible.

A scrapbook is being kept this year of all the newspaper items which have to do with Lake Sumter. Clippings and pictures from the Leesburg Daily Commercial and the Orlando Sentinel are available in this scrapbook in the library at any time for anyone to look at. If you are interested in Lake Sumter's activities just ask at the desk to see the scrapbook. Also a scrapbook of clippings cut last year is being compiled.

There have been a great many high school students using the LSJC library recently. These students may use our facilities after school and at night.

The Library Science class in its second semester is planning a trip to Orlando in about two weeks. They plan to visit libraries at the Martin Company, Rollins College, Orlando Junior College, and also grammar and high schools as well as public libraries. This class is also planning visits to the libraries at Beverly Shores, Lee, and Skeen Elementary Schools. These visits are a part of the class study of reference materials and children's literature.

Don't forget to use your library regularly!

Election Schedule Set

The tentative election schedule for Student Government for the year of 1964-65 will be held as follows:

March 10 — Tuesday — Obtain petitions.

March 20 — Friday — Petitions must be returned to Mr. Brunz.

March 25 — Wednesday — Meeting of Candidates.

April 1 — Wednesday — Campaign Speeches.

April 3 — Friday — Roast for candidates.

April 6 & 7 — Monday & Tuesday — Elections.

Everyone should do some serious thinking before making any decisions. The elected officers will govern you next year, and also will have much to do with planned entertainment and programs that will be held over the next two semesters.

Lecture on Communism Presented

The Department of Social Science and the College Affairs Committee of Lake-Sumter Junior College have announced their co-sponsorship of a series of four lectures which should be of particular interest not only to the student body but to all citizens of Leesburg and surrounding communities.

Dr. William J. Thorbecke will be the guest lecturer for the series and has chosen the following subjects:

Thursday, February 27, "Red China"

Thursday, March 12, "Analysis of Communist Successes"

Thursday, March 26, "Freedom and Communism"

An enthusiastic audience greeted Dr. William J. Thorbecke and the panel in the high school auditorium, Thursday, Feb. 13, when the first lecture in the new series was held. The subject was "Com-

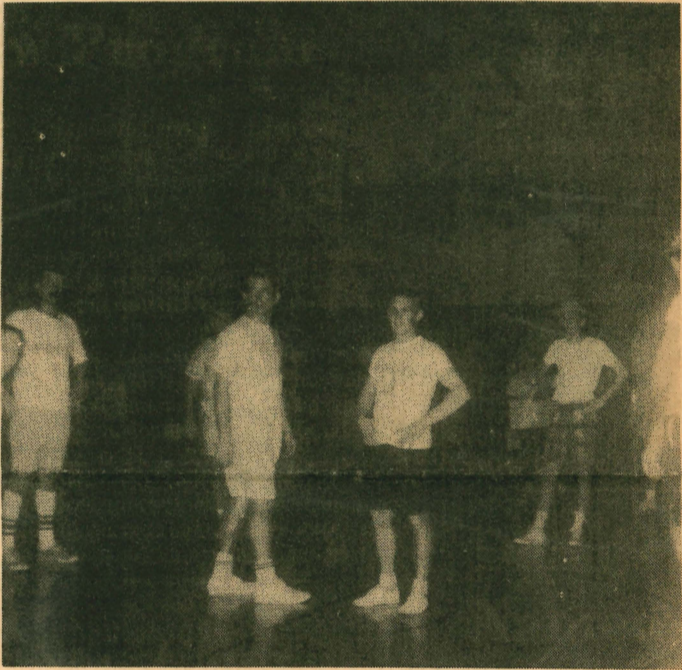

munism vs. Freedom."

Dr. Paul Williams introduced the lecture series, and Mr. Callebs introduced the panel and Dr. Thorbecke. Panel members include Judge Troy Hall, author Emmet Peters, Dr. Hoyt Pope, Tim Hatfield, and Dottie Kurras.

Dr. Thorbecke spoke of the technique which the Communists have used in gaining their ends, a technique in which they have held the initiative and the United States has only reacted.

A car wash was held by the Letterman's Club a few weeks

Members of the student-faculty teams await a jump shot between Coach Hollingsworth and John Dixon.

ago. A total of \$35 was gained towards some of our projects.

The cheerleaders gave the basketball team a chicken dinner at the home of Mrs. Mary Ruth Taylor. A large group was present for the buffet and an informal dance after dinner.

The book sale the Letterman's Club had at the beginning of this semester, also. The publication room of the long was pretty busy for a week. The official bookstore was almost put out of business as the Letterman's Club made \$22.00 from selling used books.

MUSICAL REVIEW COMING

By PENNY ASH

Lake-Sumter Junior College will act as a co-sponsor with the Junior Women's Club presenting a musical review entitled "The Ambassadors." Students have been invited and encouraged to participate. Dr. Philips directs the play and the Junior Women's Club will produce it.

The performance will have its premier Friday, April 17, in the Leesburg High School Auditorium. This showing will be for Junior College and High School students. Tickets for this performance will be half-price (75 cents) for all students.

The second performance will be given on April 18, for the general public when ticket will be \$1.50.

The faculty "Sleepers" got in a practice session before the big faculty-student homecoming game.

"Cheerleaders" for the student-faculty game on the student side found time for a quick game of cards.

Notes of Interest

LSJC will have a booth at the Lake County Fair which will be held in Eustis, March 9-14. Dr. Marvin Philips of the Fine Arts department is designing a booth to carry out the college theme.

Students who are on the probation list for the second semester should make an appointment to see Mr. Bruns. Appointments may be made with the secretary in the Guidance Building.

Last Warning! Students who drive cars to college must display their parking stickers.

The first Commencement exercises will be held on the evening of June 5. The speaker will be the distinguished Commissioner of Agriculture, Doyle E. Conner.

SPORTS

By DANNY SHAY

Intramurals are still in the "growing pains" stage on campus. A growing number of participants and more publicity will be needed next year to insure the success of the program. A variety of sports have been offered including football, tennis, and ping pong, and, we are presently participating in volleyball.

Cecil Lowery won the ping pong tournament; Steve Kimbrough won the boys' tennis, and Kenny Padgett's football team was the victor in that sport.

Entrants in these contests receive two points for entering if they also participate in at least one game of the event. The office of the director of intramurals will keep a file of the accumulative record of individual points. At the end of the school year awards will be presented. These will be given to individual points. At the end of the school year awards will be presented. These will be given to individuals on a winning team, and also to winners of individual trophies. First and second place trophies will also be given to the top three persons accumulating the highest total points at the conclusion of the intramural year.

Providing time and facilities permit, tentative plans are for further intramural activities this Spring semester in softball, badminton, archery, swimming, horseshoes, field day-track and basketball free throw.

Bowling was one of the sports offered as a part of the physical education classes. Students who participated and made outstanding improvement are listed below.

COLLEGE BOWLING TEAM

LSJC male bowlers held their first match with CFJC opponents on Tuesday, February 4, at the Leesburg Bowldrome. The Central Florida group outplayed the local group in this match and in the return match held in Ocala on February 13. The girls' team from LSJC proved formidable opponents, and they won a victory over the CFJC girls' group.

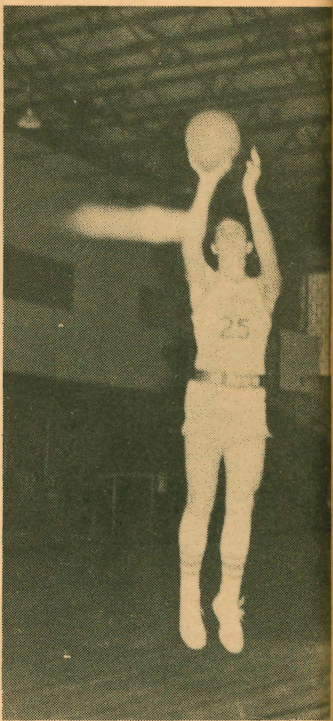

The boys' team is comprised of Moore, Blundell, Lindsley, Barnett, Jones-captain, Cabbage, Huett, J. Wright, and B. Stahl. The girls' team is composed of Norris, Schoenberger, Reich, S. Smith, Gause, Shaw, Johnson, Kurras, and Tate.

Present plans call for some matches with OJC in the future.

A sincere tribute should be paid to the graduating basketball players. These players were worthy representatives of LSJC. They are to be commended for good sportsmanship and hard work. The college and the team will miss co-captains Butch Wilson, and Hugh Lindsley, and players Joe Huett and Kenny Padgett.

SPORTS TO COME

LSJC has remaining on its Sports Agenda eight matches of both Tennis and Golf. These matches include: Daytona Beach Junior College, Orlando Junior College, Florida Military College, and Central Florida College. Both of these teams started practicing February 7. The varsity tennis

Buddy Howland, first semester member of the Laker team, gets in a few practice shots before a game.

nis team has five players: S. Kimbrough, Bushnell; D. Deleach, Leesburg; B. Lightfoot, Leesburg; B. Smith, Eustis, and B. Grady, Leesburg. The varsity golf team is composed of only three members thus far: C. Gravalee, Tavares; K. O'Brien, Howey, and J. Drawdy, Webster.

Lakers Win As Season Ends

By HOWARD SATIN

Practice, patience, and perseverance paid off for the Lakers as they finished their regular scheduled season with a terrific win over Daytona Beach Junior College on February 8. All the loyal fans had been waiting for this big win, and it came on the night of our first official homecoming. The final score showed LSJC winning by a score of 78 to 69. The Lakers, who had gotten off to a slow start last semester, made a strong showing and played great ball in the latter part of the season.
