## MPB Moving Day!

The week of September 16th was a hectic one for Multi-purpose Building residents...but, also a very exciting one. Phase I of the remodeling project is complete, with Student

Development, Financial Aid, and the V.P. of Student Services offices occupying their new quarters. Enrollment Services, Admissions/Records, Receptionists and Continuing Education will have temporary locations in the new section until Phase II is complete. Hopefully, along with the Deans, they will move into their new offices by mid-December. When construction begins on the second half, the MPB's main entrance will be changed to the south end of the building. The second-floor stairways and elevator will remain accessible. Some of the movers included (*above, l-r*): Financial Aid's Virginia Grantham (student assistant), Debra Blair, Elaine Carlisle, Nilda Rivera, Donna MacDonald and Audrey Maxwell, Admissions' Amy Pranci and Continuing Education's Cathy Meléndez, Genevieve Cox (student assistant) and Noela Banta.

### From the President...

Fall semester marks the final phase of our 40th Anniversary Celebration. Therefore, it seems fitting that the College would cap this exciting year with record-breaking enrollment, welcoming more than 3200 students this term. Our FTE enrollment is up nearly 28% over last fall! Our year to date enrollment is 18% ahead. These results are as amazing as they are challenging.

It has taken a great team effort...the recruiters in the schools, admissions and student services staff who are often the first LSCC contact with students, the maintenance workers and support staff who make our campuses so attractive and friendly, the information technology, library and media staff who help us stay connected and informed, the administrators who plan and guide our efforts, and the faculty who make learning come alive in the classroom. It took many long hours of hard work, but most importantly, it took a real commitment from each of you to our mission of serving students in order to achieve this record enrollment, and I thank you for it. Over these past few weeks, in addressing a number of area civic and business groups, I always tell them how proud I am of the job you are doing to provide a quality education to the people of our district. "You can travel farther and you can spend more money, but you can't get a better education than right here at home!"

As you recall, our Board approved an incentive payment if we were to exceed our budgeted enrollment goal. We have certainly accomplished that! In the next few days, we will prepare our enrollment report to the state. At that time, we will be able to determine the incentive amount to recommend to the Board. Because the incentive is in recognition of all of our efforts, each full-time and regular part-time employee hired by July 1, 2002 will be included. The payment will be made in October.

Speaking of money, please consider contributing to our LSCC Foundation "Raising Dollars for Scholars" campaign. Last year, it provided \$99,675 to 165 students. A major factor in our enrollment increase is the economic downturn. As people lose their jobs or have their hours reduced, they turn to us to open a door to a better future. However, these are also the times when state revenues decline, so community college students end up paying a larger share of the cost of their education. In 1996-97, tuition at the state's community colleges was 76.8% of the U.S. average, with Florida students paying about 24.3% of the cost. In 2001-02, tuition in Florida had increased to 84% of the U.S. average, and the burden on students rose to 30.3% of total cost. I think you can see that without the help of the Foundation many of our students could not afford to continue their education. Please give generously, if you can.

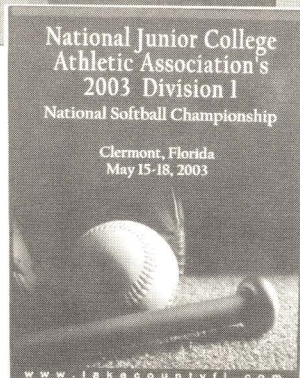

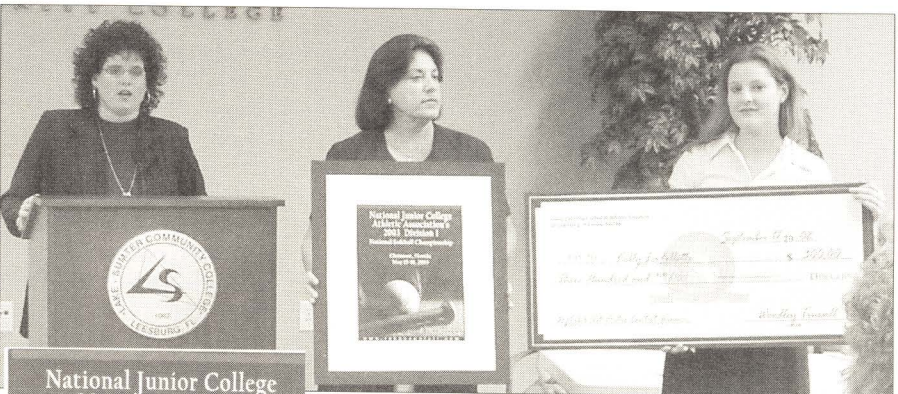

Chairman Jon Simpson (left) presented **Dr. Carolyn Meyer** an appreciation plaque during the September 18th Board meeting in recognition of her hard work on LSCC's strategic planning and the SACS reaffirmation process. Dr. Meyer also gave a report regarding the follow-up response to SACS, and discussed revisions to the **Indicators of Excellence**. These are one of the primary measures that LSCC uses to assess the progress toward accomplishing institutional goals.

ETS Manager Rey Cortes (above) presented a program to the Board lauding the many activities of LSCC's **Educational Talent Search** program.

One of LSCC's *Indicators of Excellence* is that all college employees will participate in some form of professional development training within a two-year period. **Continuing Education and Computer Institute's** new Fall / Spring Schedule lists numerous career enhancing courses. Instructor/Institute Coordinator Lucy Torman (far left photo), with student Lydia Sanchez, has Brenda Whitely (left photo, l-r) and Judy Barber in her Office 2000 class.

LSCC adjunct art instructor Nancy Clutts (above, left) announced the winner of the **NJCAA's National Softball Championship** poster competition during a Lake County Cultural Affairs Council reception on September 17th. Lake County Commissioner Debbie Stivender (center) presented a \$300 check to A.A.S. degree candidate, Kelly LaFollette who submitted the winning design. Kelly is a computer programming major, who says art is her first love. She's also the webmaster for the county's website. The many artistic student and alumni entries will be shown in a traveling display in Lake County libraries and city halls.
