ADVERTISEMENTS

DR. DIXIE JEAN ALLEN

It is a pleasure and a privilege to dedicate the 1967 NAIAD to the Dean of Students, Dr. Dixie Jean Allen. Through her cordiality, empathy, and tireless patience, Miss Allen has won, and will continue to win, the affection and admiration of the students at Lake-Sumter Junior College.

Class of 1967

NAIAD '67

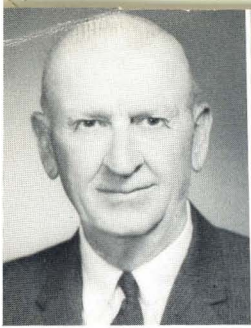

It is wonderful to have a word and picture story of Lake-Sumter Junior College's fifth year of operation as depicted in this '67 NAIAD. A memorable year is presented within these pages in a unique fashion.

All of us—students, faculty and staff—congratulate the NAIAD staff and faculty advisor for an outstanding publication.

Paul P. Williams, *President*

You get all the benefits from the operation of your Municipal Power System.

The money you pay for electricity goes to meet the power system's costs of operation . . . to improve electric service, through an ever-expanding network of power lines . . . for payments to the city in lieu of taxes . . . and to keep your electric rates low.

Every dollar of earnings benefits you—the electric consumer—without the use of one cent of tax money. Your municipal power system is owned, controlled and managed by local citizens, to keep the benefits at home!
