Buggs not returning

By DAVID KAMINSKI

Cheryl Buggs will no longer be president of Student Government Association because of "personal problems."

In a statement, Mary Ruth Taylor, director of student activities, said, "Cheryl Buggs will not be returning due to personal problems. In that respect, Mark Keedy will be president for Term II."

Taylor did not expand on the problems, but Buggs is not enrolled at Lake-Sumter this term. Keedy served as vice president last term. In addition, Taylor said, "We'll have an election to fill vice president."

There will be 13 Senate seats to be filled this term along with the vice presidency. The deadline for applications was Friday, Jan. 20. Voting takes place this week. Times and places for voting are as follows: Thursday, Jan. 26, from 11 a.m. to 1:30 p.m. in the College Union and from 5:30-6:30 p.m. in the Liberal Arts Building, and from 10 a.m. to 2 p.m. on Friday, Jan. 27, in the College Union. Votes will be tallied after 2 p.m. on Jan. 27.

Buggs served as president for the whole of Term I.

Keedy said, "We're going to continue trying to reach more students and get more involved."

CLAST deadline Feb. 10 for spring graduates

By JERE LYNNE SMITH

If this is a student's last semester of enrollment at Lake-Sumter and he plans to graduate or transfer to a university, then he needs to know that Feb. 10 is the deadline for applying for the CLAST (College Level Academic Skills Test).

This test is required of all students who wish to receive their Associate in Arts degree and who have a minimum of 56 hours. Applications can be picked up in the Counseling Center.

The CLAST consists of four parts: computation skills, communication skills, reading comprehension, and an

essay (general knowledge).

A minimum passing score has not yet been established by the state but should be determined by February. Students taking the test in March will be affected by the new minimum score in August. Those who do not make the minimum score will have a chance to take the portion of the test they do poorly on over again.

The test will be given on March 10 in the Math-Science Building. Students should bring two or three #2 pencils and two pens with blue or black ink.

Information and sample questions may be obtained at the Learning Opportunities Center.

Registration extended one week Enrollment slips by 200

By BRIAN MAHONEY

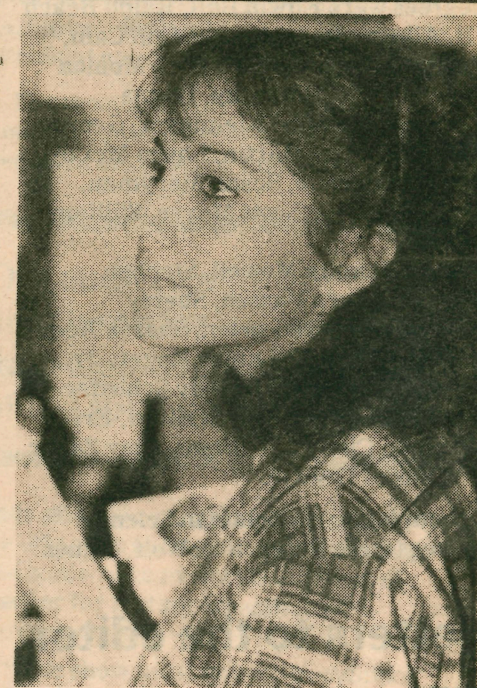

A significant drop in enrollment from Term I to Term II prompted Lake-Sumter officials to extend late registration for one week. The extension included 100 classes from private pilot aeronautics to American literature.

Two days before the scheduled closing of registration on Jan. 10, the student headcount was down by more than 200 students and the full time equivalency (FTE), upon which funding is based, was down more than 10. This low headcount improved by 84 more students by Jan. 13 for a total of

1,709. A final tally was not available until after registration closed on Jan. 19, too late for the Angler deadline.

A drop in the enrollment and FTE could seriously affect next year's funding, according to Dr. Lester Ruth, director of research, planning and development.

The college's state allocations are based on an assigned FTE, which L-SCC possibly will not reach this year, as well as actual operation costs from the previous year projected forward. This system has just recently gone into effect, making it difficult to estimate the results of Lake-Sumter enrollment drop, Ruth explained.

A new term...

BSU remembers Dr. King

The words "I have a dream" echoed outside the College Union Monday, Jan. 16, as they might have over a decade ago in the nation's capital before a crowd of nearly 200,000.

There were just over 20 people, however, who gathered Monday to hear Rev. Calvin Holloway deliver Dr. Martin Luther King's "I have a dream" speech. The speech highlighted a tribute to King sponsored by the Black Student Union. The event, which was attended by equal numbers of blacks and whites, commemorated King's birthday.

Anne Francis, BSU president, opened the tribute with a brief account of King followed by readings from three of his other speeches. Guest speakers included James Rennie, English instructor; Larry Ellis, assistant to the president; and Kevin Benton, minority recruiter.

Francis began, saying, "Dr. King was a man who gave his life for his ideas of making our country a better place to live in and to raise standards in our nation. His ideas remain alive in

the country and in ourselves."

"Martin Luther King opened the door, but others were there to lend a shoulder," said Rennie, who commended the many who supported and furthered the work of King. Rennie ended his speech with "Leave with one thought: you've come a long way in one generation. It's good to be an American citizen."

The Rev. Holloway, a Lake-Sumter student, presented a short history of King's life and went right into King's most famous speech. After reciting the speech, Holloway commented, "Though Dr. King is dead, his dream lives on."

Francis added, "I have benefitted, and I think people both black and white have benefitted from Dr. King. Changes are found here in Lake County, but there's still much progress to be made."

The tribute marked the second time BSU has commemorated Dr. King's birthday. Francis said she hopes that BSU continues the annual ceremony.

38 graduate after Term I

By ORMA CRAWFORD

An informal commencement program in the College Union Dec. 21 honored 38 graduates of Term I, 1983.

Students awarded Associate in Arts degrees were Edwin Ball, Ralph Beach III, Alberta Bergmann, Adam Cain, Jerry Caple, Melinda Foust, Monica Gowan, Scott Holloway, Donna Jackson, Michelle Kleimeyer, George Laois, Michele Martin, Laura McCoy, Deanna Mericle, Susan Meryman, Mark Messina, Scott Meyer, William Mills Jr.

Also, Juanita Mowell, Stephen Parker, Laura Passen, Sherry Rivenbark, Dirk Porten, Sharon Reed, Lisa Register, T. Lamar Rogers Jr., Irene Shoemakers, Randy Schuster, Glen Sellers, Roberta Stallard, Eric Stephan, Cheryl Williams, Clay Zeller, and Susan Leware.

Completing Associate in Science degrees were Patricia DeWolf, James

Green, Vernon Hutto, and James Swain.

Students graduating Magna Cum Laude (with high honors, GPA 3.6-3.79) were Adam Cain, Monica Gowan, Deanna Mericle, and Alberta Bergman.

Graduating Cum Laude (with honor, GPA 3.4-3.59) were Patricia DeWolf, Randy Schuster, and Laura Passen.

The program consisted of a welcome by Jerry Smith, admissions director, followed by the guest speaker, Bertha Walters-Colwell, manager, Sears Roebuck and Co., Lake Square Mall. The speaker discussed how to apply knowledge to the real world, but also how an individual must do this himself.

Awards were presented by Dr. Robert Palinchak, president, and Dr. Dixie Jean Allen, dean of student services.

Following the ceremony, refreshments were served to graduates and their families.

Letters to the editor

Editor's note: *The Nov. 28 issue of the Angler sparked many comments and several letters to the editor, mainly in regard to the editorial on trucks driving on the grass and the guest commentary on Rednecks and Preppies. Two of these letters were not published in the last issue due to early deadlines produced by the Christmas holidays. Excerpts of these letters are included below.*

"...There is a reason for the saying: 'two wrongs do not make one right'! I certainly feel there are much worthier causes in this world than to concern oneself over trivial matters such as this. Devote your time and energy to these, not to proving how childish you can be!

D. Marshall
former student

"...It seems to me that Ivy (Marvin's) commentary and your lead story, 'Crider: Blacks need positive role models,' don't coincide. What does Ivy do with the 'Black red-neck preppie?' I don't know which group is best because I'm a combination of the red-neck and preppie..."

B.A. Pillow

Thanks for the comments. Please feel free to write letters to the editor as explained below in the masthead.

CCM welcomes participation in discussions

The Christian Campus Ministry invites everyone to participate in the club this term. Among the planned activities is a church retreat sponsored by the Southern Baptist Convention to take place from Friday, Feb. 3, to Sunday, Feb. 5.

CCM is a group which gathers once a week to discuss a variety of topics for the purpose of a better understanding of the Bible.

The meetings are held every Tuesday morning at 11 a.m. in MS-3. Pete Kehde, biology instructor, is the club's sponsor. The meetings are open to everyone, Christian or non-Christian, regardless of denomination.

CCM periodically holds activities of current interest or involving Christian fellowship. Last term, for example, it showed a film on the Shroud of Turin, the mysterious burial cloth of Jesus. The meetings also relay information on Christian activities outside of CCM.

More information about CCM can be obtained from Kehde or any other member of the group.

Briefs

L-SCC attends nurse convention

The Nursing students at Lake-Sumter Community College are the newest members of the Florida Nursing Students Association.

Those from L-SCC who attended the association's fall convention in Fort Lauderdale were Tammi Humphrey, president; Kyle Walton, first vice president; Misty Davis, second vice president; Cheryl Letsinger, recording/corresponding secretary; Winnie Rezeppa, treasurer; Mary Ward, historian; Ramona Meredith, Nursing Student of the Year; Susan Pennacchia, faculty advisor; Dianne Bennet, Nancy Schommer, and Linda Hosburgh.

Focus sessions were held on pain control in cancer patients, cardiovascular nursing, child abuse, drowning, and taking State Board exams.

AT&T offers employment

By BARRY O'BRIEN

Carolyn Leigh, coordinator of cooperative education for AT&T (American Telephone and Telegraph), recently visited L-SCC with information concerning AT&T's Cooperative Education/Student Employee Program.

Students may take advantage of part-time employment opportunities at the management and non-management levels. Leigh said applications for positions will be accepted until the end of February.

Jane Miller, of the Career and Job Placement Office in the Learning Opportunities Center, called the program an excellent opportunity for students, especially those seeking a career in the computer science field.

For complete information, interested students should contact Miller between 8:30 a.m. to 4 p.m., Monday through Friday.

Two join Angler staff

By JOHN VON HARTMAN

The Angler has two new staff members: Paula Jones, the new advertising manager, and Mike Konstan, new assistant editor.

Jones, a graduate of Mount Dora High School, replaces Roberta Stallard who graduated last term. Konstan of Tavares is taking the place of David Schott, who will be transferring to another college next year. Konstan, who is majoring in radio and television

broadcasting, took the position this term as preparation for the editor position next year. He soon will be producing for television for Doug Trabert, media specialist, in a private study course.

BSU helps needy

The Black Student Union, prior to Christmas, distributed 20 baskets of food and toys to needy families throughout the area.

David Krause, advisor, and the members of the group met in Leesburg's Federation of Clubs Building before picking up the donations from area merchants. BSU then turned them over to the Lake Community Action organization and St. Paul's Catholic Church in Leesburg for distribution.

Financial assistance offered

Lake County's Private Industry Council, formerly the CETA Program is offering financial assistance for persons meeting the definition of economically disadvantaged and who expect to graduate by June 1984.

The assistance consists of books, tuition, necessary supplies, and one dollar per hour when the student is in class.

Interested students should contact Debra Snow at 343-9890 or 343-9895.

Volleyball begins spring sports

DANNY PROVENCHER

Volleyball, the first intramural sport of Term II, began last Tuesday. A good turnout of five teams will compete over the next month for the championship title. The teams consist of the Burnouts, Rotaract, Maniac's Maulers, Brain Food, and Team E. The Burnouts are made up of Steve Stapas, Buddy Patton, Rick Panlilio, and Jan Novak. Joy Swiderski, Bobby Winters, and Andy Anderson. Last year's champions, Rotaract, comprised of Kathy Bales, Griff Bridges, Tina Gardner, Mary Lou Bodeau, Susan Davis, Diane Winters, Skip Smathers, Terri Mayo, and Robin Cope.

Members of Maniac's Maulers are Robert Tennant, Ron Wagner, Deana Snavelly, Rose Locke, David Kaminski, and Danny Provencher.

Brain Food, the faculty team and last year's runner-up, is made up of Lamar Sharp, Del Hollingsworth, Mike Echhoff, Debra Dabney, Kevin Benton, and Terry Miller.

The final team is Team E and consists of Kristi Brandt, Veronica Jackson, Greg Lane, John Okerlin, Mike Kelly, Roger Croft, and Peggy Harbison.

The next team intramural sport is co-ed softball. An organizational meeting will be held on March 6 for anyone interested in participating.

National Shakespeare Company presents Hamlet

By ALICIA WHITE

"Hamlet" will be presented by the National Shakespeare Company at 8 p.m. Friday, Jan. 27, in the Fine Arts Center.

Tickets are \$7 each and may be purchased at the College Bookstore. The play is sponsored by the College Lyceum Committee.

The National Shakespeare Company has performed on the L-SCC campus for a number of years. The company is in its 21st year. Some instructors are giving extra credit to students who attend the play.

Drama offers fantasy world for actors, audience alike

By SHIRLEY WAGNER

"Three minutes to curtain," whispers the stage manager.

Houselights are dim. Actors and actresses are on stage ready to bring life to the characters of the play.

A quick glance around the audience reveals the producer, director, assistant director, some of the set designers and builders, the publicity crew — now a part of the audience, their performance over and yet it has just begun.

The curtain opens and the play begins. The audience is caught up in the story as the actors and actresses portray the characters. Laughter is intermittently heard across the room. A lady softly brushes a tear from her eye as she appears to relate to the situation being performed on stage. The scene ends and the audience claps in approval.

During the intermission the stage crew quickly rearranges the set for the next scene; the costume crew repairs a broken zipper; the make-up artists repair make-up. The houselights dim and the stage is ready for the next scene.

The show ends — the actors and actresses come forward for a second bow as the audience rises for a standing ovation. The audience forgot their problems for a time as they also became a part of the total performance.

The play was over so quickly. The long hours spent in preparation seemed like eternity when the play was getting under way, as if opening night would never come.

Weeks spent in choosing the right play, assigning parts, designing and building sets, designing and sewing costumes — all a part of the performance. How well each of the crews performed their individual and special assignments contributed greatly to the actors' and actresses' performance before the audience.

There really is more to theater class than acting. Many students have discovered a world that has tapped and used talents they didn't know they had.

Some amateur artists have found that they are able to use their talent in new and creative ways in set design. Others have been able to use abilities in dress designing, while still others have made excellent use of technical skills.

For most it simply begins as part of a course requirement — so many hours required in lab work, and for some it

The audience forgot their problems for a time as they also became a part of the total performance.

ends after the assignment is over. But, for others, it has continued as a hobby, and some have even chosen areas of theater for further education and careers.

"The show must go on," becomes a reality rather than a statement, when a person has had the privilege of working all night to paint a set — and hope that it gets dry in time — or finish a costume for dress rehearsal.

But, when the show is over, and the audience stands as the cast comes forward for that second bow, he knows that he has been a part of a performance that has brought joy to others. And whether he decides to put it in his memory as part of a college course or to pursue it as a hobby or a career, it is an experience unlike any other he will ever have.

Lakers defeat conference-rival Polk

Lake-Sumter 2-3 since Christmas break

The Lakers put together one of their best performances of the year Saturday, Jan. 14, to rally past Polk Community College 60-55.

Lake-Sumter has played five games since the holidays and has doubled its record to 4-13. The Lakers also routed Black Hawk (Ill.) East Community College 88-67 on Jan 4.

Against Polk, Lake-Sumter handled a slim lead for most of the first half. The Vikings netted the last 6 points of the half, however, to take a 34-32 lead at intermission.

Lake-Sumter rallied in the second half to tie the contest at 38-38, but Polk surged with four consecutive baskets and took a 50-40 lead with 13:27 remaining. The Lakers came back once again on three straight baskets by Kevin Hagood. At the 5:52 mark, Griff Bridges scored to knot the score at 52-52.

Each team scored 2 more points before Greg Lane hit a field goal and Hagood sank a free throw for a 57-54 Laker advantage. Polk collected a free throw with 20 seconds left to trail by only 2 points. With 13 seconds to go, Gary Jones added a free throw to secure the victory. Bridges added another two-pointer at the buzzer for the final 60-55 score.

Lake-Sumter played a poor game against Black Hawk, but even that was

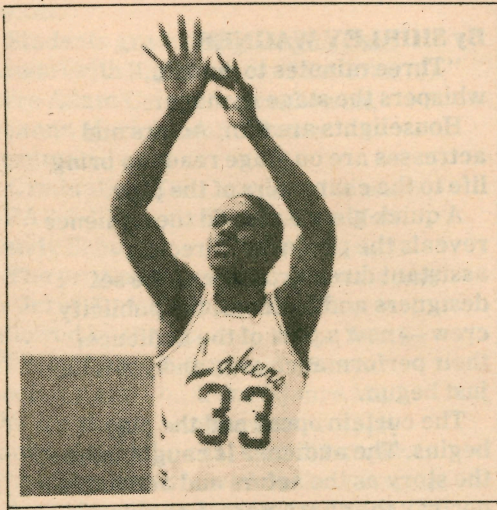

Photo by Brian Kaminski

Eddie Williams finds an opening for a jump shot against Polk.

enough for a 21-point win. The Lakers built an early lead and at one time had the Warriors by 28 points.

In the Polk win, four Lakers were in double figures: Bridges with 17, Ross Matchett and Hagood with 12 and Jeff Lamb with 11. Bridges had 19 points against Black Hawk with an additional 16 from Hagood, 13 from Lane and 11 from Matchett.

The Lakers came back from the holidays and dropped a 79-57 decision to Kankakee, Ill., the No. 6 junior college team in the nation. Lake-

Sumter's other losses included a 101-77 defeat to Seminole Community College and 87-65 loss at Hillsborough Community College.

Lake-Sumter now sports a Suncoast Conference record of 1-1 after the Polk game.

Including the Polk game, Bridges is the team leader in scoring with 351 points, a 20.6 per game average. Hagood, the tallest Laker at 6-7, leads the team in rebounds with 162. Lane is the assist leader with 108 while Lamb is a close second with an even 100. Lamb is the most prolific stealer with 45 take-aways, closely followed by Lane and Jones at 37.

□ □ □

The Angler player of the week was hard to pick after all the Lakers handed in sterling performances against Polk. But Jeff Lamb takes the honor, narrowly edging Griff Bridges and Kevin Hagood.

Lamb is a freshman guard from Tampa. At 5-foot-10, he is usually the shortest player on the court, but that height disadvantage didn't keep him from hustling against the Vikings. One knew he was off to a good game after he stole the tipoff from a Viking and drove for a layup just five seconds into the game. In addition to 11 points, Lamb paced the Lakers with team-highs of six steals and nine assists.

Two Lakers ineligible

Two Lake-Sumter basketball team members have been dropped from the squad due to academic ineligibility.

Ed Amos, the tallest Laker at 6-9, and Roger McKinnon, a 6-5 forward each had grades below the college standards. Amos was still eligible according to state standards, but was dropped from the team for failing to meet Lake-Sumter requirements.

The state requires that the athlete must have a 1.6 grade point average on his best 10 credit hours. Lake-Sumter however, demands a 1.6 GPA in the player's best 12 credit hours.

McKinnon, from Hilliard, managed only a 1.0 GPA in Term I. Amos, of Tampa, also had a 1.0 average in his best 12 hours, but calculated the state way, Amos was eligible with a 1.9 GPA.

"We let him (Amos) play two games after grades came out," said Laker Coach Ernie Lorenz. The Eligibility Committee didn't come back till Thursday (Jan. 5). The Lakers had played two games prior on Jan. 2 and 4. The seven unanimously decided to uphold the standards of Lake-Sumter.

Lorenz agreed with the ruling. "Guys are here to get an education," said.

McKinnon was on scholarship, and that scholarship was awarded to B. Singer, a freshman from Tavares. Amos was not on scholarship, but received room and board.

Also, walk-on Eddie Williams of Leesburg was given a scholarship in Term II. With that addition, the entire Laker squad of nine is currently on scholarship.

More than just a student

Bridges combines basketball, studies

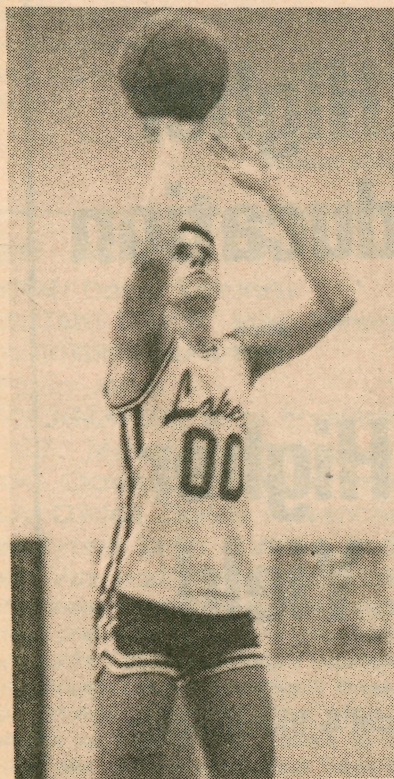

Photo by Brian Kaminski

Griff Bridges shows his leading-scorer style in the Laker win against Polk.

Griffin Bridges appears to be a typical Lake-Sumter student.

He graduated in 1978 from DeLand High School, and went to work right after graduation. Two years ago, he and his family moved to Umatilla, and Bridges began attending Lake-Sumter. At age 23, he is a sophomore studying criminal justice.

Nothing separates Bridges from the average student. That is, until he puts on a Laker uniform and hits the Lake-Sumter basketball court.

Bridges is a starting forward for the team. He leads the Lakers in points scored, field goal percentage and free throw percentage and is second in rebounding. Bridges is small for a college forward, just 6-4 and 170 pounds, but what separates him from the average students is determination — the determination to be a starter in college ball.

"A starting position at a college has always been a goal, plus I could get a scholarship to a four-year college," Bridges said.

Although Bridges never played high school basketball, the opportunity for him to fulfill that goal came last year when Lake-Sumter reactivated the basketball program.

"I was out here a term before they

announced they would have a team," Bridges recalled. "When they announced it, I decided to try out.

"About 30 or 40 people were here. It was kind of an open tryout, two sessions in the morning and afternoon. Coach (Hugh) Lindsley (last year's coach) and other people evaluated us. I got a letter inviting me to another tryout. The second had a lot more people, too. Not long after that, Coach called up and asked if I'd like to be the first to sign up for a scholarship."

Bridges did, and became the first player for the reborn program. Bridges saw limited action last year, coming off the bench as a second-team forward.

When this year rolled around, Bridges was one of two returning players and quickly took advantage of that.

"Like I've improved 100 percent," Bridges commented. "I worked out all summer with Coach Lindsley, and Coach (Ernie) Lorenz worked with me. It's like I've improved overnight."

It wasn't quite overnight, but Bridges has come into his own this year. He is a team leader as co-captain along with Greg Lane.

But in some ways, Bridges is a typical student. "I'm not going to school just to play basketball," he said, "but to get an education."

LOC offering job placement

By BARRY O'BRIEN

Lake-Sumter's Career and Job Placement Office, located in the Learning Opportunities Center in the Tech Building, offers a daily, comprehensive listing of local and statewide employment opportunities. Employment opportunities range from part-time positions to full-time professional positions in a number of career fields.

Through the Florida State Employment Service's computer Career Information System, students are able to obtain current listings of employment opportunities throughout the state, said Jane Miller, coordinator.

Current listings include: two positions for law office receptionist, part-time; positions for certified LPN's, X-ray technicians, and lab technicians, full-time; and word processor, full-time.

For further information, contact the Career and Job Placement Office between 8:30 a.m. to 4 p.m., Monday through Friday.
